

COMPOSITE AIRCRAFT BUILD DIRECTOR

Posted February 18, 2019

## Job Description

Our Composite Aircraft Build Director will oversee and coordinate all aircraft construction elements and project efforts, including but not limited to assisting our customers in the final assembly of their aircraft. Other areas of responsibility include managing the composite build shop, the paint, interior and avionics shops and the MRO center. The Composite Aircraft Build Director will lead a team of 10-30 aircraft technicians building all aircraft across the Lancair line and report to the Build Center Manager.

### Essential Duties:

- Works with build team to establish division requirements, goals and objectives
- Works with customers to build their aircraft in a timely and efficient manner..
- Coordinates resources required to support all project phases.
- Works with manufacturer's engineering groups to ensure their designs meet all functional requirements.
- Manages team of skilled and unskilled personnel.
- Tracks and reports project metrics.
- Quality control.

### Additional Knowledge, Skills, or Abilities:

- Must be proficient in Microsoft Suite: Word, Excel, PowerPoint and Project.
- Have previous relevant experience with composite aircraft manufacture and assembly.
- Have been in a management role in previous job.
- Good communication skills on technical issues.

### Education and/or Experience:

- Bachelor's degree in Mechanical Engineering, Business and/or Aviation Technology School certification. MBA or equivalent is a bonus.
- Five years of previous work experience in a similar field and position.
- Private pilot license or better preferred.

### Salary Range

\$50,000 - \$60,000 annually

Salary is commensurate with experience.
